TO: ALL COMMUNITY MEMBERS

FROM: CHIEF AND COUNCIL

RE: SHORELINE REMEDIATION WORK AND PASSAGE CORRIDOR

As you are aware, the community members of Gull Bay have ratified a settlement agreement with Ontario Power Generation ("OPG") in respect of certain damages caused to Gull Bay, the Gull Bay Reserve and the traditional territory of Gull Bay resulting from the construction of the OPG dams along the Nipigon River (the "Settlement Agreement"). The terms of the Settlement Agreement, *inter alia*, required OPG to carry out certain shoreline remediation work along the shoreline of the Gull Bay Reserve.

As you may also be aware, Gull Bay and OPG require access to and free passage along the lands adjacent to the shoreline in order to carry out the required remediation work. The required access corridor is along certain portions of the reserve lands adjacent to the shoreline, being an area that runs along the shoreline and which is approximately 60 feet in width measured from the high water mark of Lake Nipigon.

It is imperative that the shoreline remediation work proceed as planned. As a result Gull Bay is proceeding to deal with all chattels, improvements and other outbuildings that are situated on the access corridor portion of the Reserve lands.

All members that have any moveable property, including vehicles, recreation vehicles, boats, wood piles, etc. within the access corridor must move such items no later than June 30, 2021.

In the case of any permanent structures, improvement or outbuildings that cannot be relocated, such items will be torn down by the remediation contractor. Once the shoreline remediation work is complete, such structures will, in most cases, be rebuilt in a similar manner, and using materials of a similar quality and nature.

Please note that Gull Bay is well within its authority to carry out the removal of the above noted chattels or improvements as it deems necessary. The shoreline remediation work has previously been condoned and approved by the members of Gull Bay by the ratification of the Settlement Agreement.

Any community member with any general questions regarding the shoreline remediation work and efforts should contact Chief and Council.

Miigwetch,

Chief Wilfred N. King, B.A., H.B.A., LL.B.

For Gull Bay First Nation Chief and Council
