

Impala Canada is the only Canadian primary palladium producer. Located in Northern Ontario, Lac des Iles Mine (LDI) features a world class orebody consisting of an open pit and one of the largest underground mines in Canada. Mine operations are data driven, supported by the latest in mine technology and equipment, real time mine management, and automation. At LDI we employ over 700 of Canada's best and brightest in their field. Driven to exceed, our people are motivated by a culture of safety in a positive and collaborative work environment. With a modern infrastructure, significant exploration portfolio, and dedicated employees Impala Canada is a well-positioned, low cost, long term, sustainable palladium producer.

Senior Long Range Planning Engineer 168-2022

Reporting to the Technical Services Manager, working a fourteen (14) day on fourteen (14) day off rotation mine site, the successful candidate will be in charge of Lac des Iles Mine's medium to long term planning and scheduling. Incorporating recent and future exploration results, the incumbent will evaluate mining opportunities and determine appropriate mining methods to shape the future of the operation.

Responsibilities:

- Produce a long term plan that is feasible and meets the fiduciary commitments of the company
- Produce and maintain Life of Mine plans
- Perform economic analysis for new mining areas
- Evaluate and propose optimized mining methods
- Provide direction and leadership to onsite technical staff
- Cooperate with all members of the technical team to obtain the most efficient mine plan
- Present plans to different work groups
- Support annual budgeting process
- Utilize Deswik to develop mine plans
- Support FEL studies for future mine expansions
- Participate in strategic planning of operation
- Miscellaneous duties reasonable and beneficial as the department requires

Qualifications Required:

Education and Training

- 7 – 10+ years mine planning experience with multiple mining methods (required)
- Degree in Mining Engineering or its equivalent from a recognized institution
- P.Eng in Ontario or the ability to transfer credentials within one year (preferred)
- Underground mining experience
- Functional knowledge of geotechnical principals
- Excellent oral and written communication skills

Administrative Skills

- Proficient with technical computer programs, technical writing, experience in all office based software, and a strong ability to conduct data analysis. High attention to detail, effective organizational skills, ability to prioritize and attentive to time management

Interpersonal Skills

- Ability to work independent, self-motivated, dependable, responsible and flexible. Ability to work effectively on a team, assess problems promptly and resolve or inform supervisor where appropriate

Work Environment

- Work is generally performed in an office environment, keyboard and computer mouse. Some exposure to the mine. Prolonged sitting.

Safety Responsibilities

- Compliance to Impala Canada safety, health and environmental policies and systems. Assure adherence to the highest standards of the Occupational Health and Safety Act for myself and my team

The position offers a competitive remuneration package consisting of hourly wage, health & medical insurance, retirement savings plan and travel allowance. Meals are provided while at the mine site.

Please note, that all job offers are conditional upon successful completion of a pre-employment medical which includes drug and alcohol testing. **Proof of being fully vaccinated for Covid-19 will be required as a condition of employment for new hires.**

We thank all applicants for their interest, however, only those selected for an interview will be contacted. Please visit www.impalacanada.com for more information regarding Lac des Iles Mines Ltd. Visit careers.impalacanada.com to apply.
