TBDHU.COM

November 8, 2021

To: École Gron Morgan Public School Community,

The Thunder Bay District Health Unit (TBDHU) has identified two COVID-19 cases associated with École Gron Morgan Public School. At this time, there is no evidence that the virus has spread in the school setting. This is not considered an outbreak.

We are actively working with the school and Lakehead Public Schools to identify close contacts, and to investigate and manage any potential exposures in the school and any related settings.

Impacted individuals and families will be directly contacted by public health to provide further instructions. Anyone else in the school setting who is not specifically contacted by public health would not be considered at elevated risk.

As the investigation unfolds, additional actions will be taken as needed to manage the situation.

For further information about COVID-19 and schools, please refer to the TBDHU website: [TBDHU.com/stopgerms](https://www.tbdhu.com/stopgerms) and [TBDHU.com/safereturn_parents](https://www.tbdhu.com/safereturn_parents).

TBDHU encourages anyone who is eligible, to be immunized with both doses of the COVID-19 vaccine. Please visit [TBDHU.com/VaccineFacts](https://www.tbdhu.com/VaccineFacts) for credible information on the vaccine and where to get vaccinated.

Sincerely,

Janet DeMille MD, FRCPC
Medical Officer of Health
Thunder Bay District Health Unit
